Second in Winchester for student progress!The provisional Progress 8 measure for schools has now been published. I am delighted to inform you that The Henry Beaufort School's Progress 8 score is 0.25 which puts the school in **fifth place** for student progress out of all of the secondary schools in Hampshire.

A progress 8 score of 0.25 means that all students on average have achieved a quarter of a grade higher than their prior attainment indicated they could. This means that The Henry Beaufort School is in the "**above average**" category for progress **nationally**.

Yours sincerely

Miss Hearle
