“Teaching a child to read is one of the most important things an educator can do. There’s so much to think about when choosing reading books for a child, but Twinkl’s **Rhino Readers scheme** delivers exactly what you need. We’ve paired phonics and clear progression with all the magic of a good story, to create unstoppable readers.”

# Our Approach: Decodable, Diverse, Dynamic

Books with a difference that support children every step of the way

Rhino Readers books keep the focus on phonics, with clear progression and support for children's early decoding skills as they move through each level. This method ensures children only read the sounds and tricky words they've already learnt.

- ✓ Children build confidence as they work through the levels, regularly applying new learning. Sounds, tricky words and common exception words are introduced systematically and gradually.
- ✓ Progression is fluent and smooth, with the teaching load for each level split into sublevels a, b and c.
- ✓ Stand-out quality, with detailed, beautiful illustrations and characters that chime with children today.

“It’s a miracle - my daughter loves these, after being put off reading by other providers.”  
Oliver, parent

“Really lovely stories and non-fiction books that kept my children motivated and interested.”
