This policy applies to all personal information however it is collected, used, recorded and stored by the school and whether it is held on paper or electronically.

What is Personal Information/ data?

Personal information or data means any information relating to an identified or identifiable individual. An identifiable individual is one who can be identified, directly or indirectly by reference to details such as a name, an identification number, location data, an online identifier or by their physical, physiological, genetic, mental, economic, cultural or social identity. Personal data includes (but is not limited to) an individual's, name, address, date of birth, photograph, bank details and other information that identifies them.

Data Protection Principles

The GDPR establishes six principles as well as a number of additional duties that must be complied with at all times:

1. Personal data shall be processed lawfully, fairly and in a transparent manner. In order for personal data to be processed lawfully, it must be processed on the basis of one of the legal grounds set out in the GDPR. These include (amongst other relevant conditions) where processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority exercised by the school.

Where the special categories of personal data are processed, this shall include (amongst other relevant conditions) where processing is necessary for reasons of substantial public interest.

When processing and special category data in the course of school business, the school will ensure that these requirements are met where relevant.

2. Personal data shall be collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes (subject to exceptions for specific archiving purposes.) The school will only process personal data for specific purposes and will notify those purposes to the data subject when it first collects the personal data or as soon as possible thereafter.

3. Personal data shall be adequate, relevant and limited to what is necessary to the purposes for which they are processed and not excessive. Personal data which is not necessary for the purpose for which it is obtained will not be collected.

4. Personal data shall be accurate and where necessary, kept up to date; Personal data should be reviewed and updated as necessary and should not be retained unless it is reasonable to assume that it is accurate. Individuals should notify the school of any changes in circumstances to enable records to be updated accordingly. The school will be responsible for ensuring that updating or records takes place where appropriate.

5. Personal data shall be kept in a form that permits the identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed. The school will not keep personal data for longer than is necessary for the purpose or purposes for which they were collected and will take reasonable steps to destroy or erase from its systems all data which is no longer required. The school complies with Hampshire's Records Management Retention schedule.

6. Personal data shall be processed in a manner that ensures appropriate security of the personal data and which includes protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.
